ABOUT US

Founded in 2014, EGYCRETE is a leading Egyptian manufacturer of premium and standard precast concrete products, serving infrastructure, residential, commercial, and urban development projects across Egypt and the region.

EGYCRETE is part of **Capriole Group**, a multinational group active in construction, real estate development, education manufacturing, and investment with a strong footprint across the Middle East and Europe.

EGYCRETE operates **4 factories with 8 production lines**, delivering millions of square meters annually, backed by advanced **state of the art European production lines** and strong Research & Development capabilities.

MISSION & VISION

Our mission is to **develop and introduce the latest innovations of precast concrete products** to the Egyptian market. We also aim to meet the functional, technical, and aesthetic requirements of residential, commercial, and infrastructure projects, while ensuring consistent quality, reliable delivery, and long-term value.

Our vision is to lead the **transformation of outdoor paving and infrastructure surfaces** in Egypt, the GCC, and the Middle East, replacing outdated asphalt solutions with **high-performance concrete systems**.

OUR SCALE

EGYCRETE operates **four manufacturing facilities** strategically located across Egypt, including **Badr Industrial City** and **Al-Sadat Industrial City**, allowing efficient production, regional coverage, and fast project support. Our logistics network ensures reliable **delivery to all Egyptian governorates**, regardless of project location.

TECHNOLOGY

ENGINEERED FOR PERFORMANCE.

ADVANCED MANUFACTURING

EGYCRETE operates modern high-capacity production lines powered by advanced European hydraulic pressing systems. These systems enable the production of high-density concrete units with precise dimensional accuracy and structural consistency.

QUALITY CONTROL

TESTED. VERIFIED. CERTIFIED

EGYCRETE products are manufactured in accordance with internationally recognized standards such as **ASTM C90, ASTM C129, & BS EN 1338**.

Our raw materials internationally recognized and are subject to regular testing and certifications.

Every production batch undergoes comprehensive **internal and external testing** before delivery.

INNOVATION

At EGYCRETE, we are **constantly innovating** to ensure that our products remain at the forefront of the industry. We invest in the **latest technology** to **improve the quality, efficiency, and sustainability of our manufacturing processes.**

Our use of **advanced hydraulic press technology** is just one example of how we are pushing the boundaries of what is possible in tile production. This technology allows us to create tiles that are not only **stronger** and **more durable** but also more **consistent in quality.**

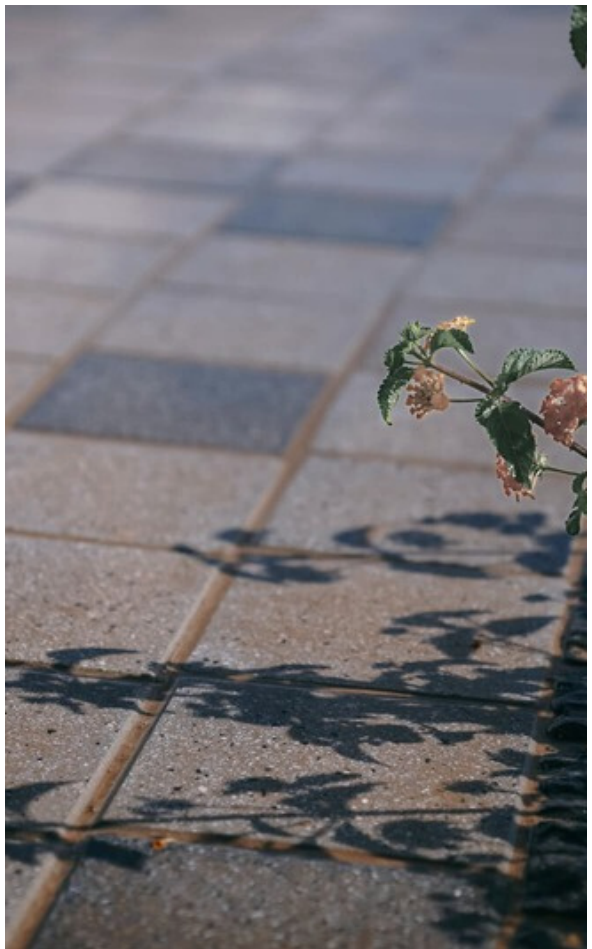

“Our commitment to innovation means that when you choose EGYCRETE, you are choosing a product that represents the cutting edge of tile manufacturing.”

AESTHETIC APPEAL

The **aesthetic appeal** of EGYCRETE's paver tiles is **unmatched.** We offer a **wide range of designs, from classic and traditional to modern and contemporary,** ensuring that there is a **tile to suit every style and taste.** Our tiles are designed to **enhance the visual impact of any space,** adding a touch of **elegance** and **sophistication.** Whether you're designing a public park, a commercial plaza, or a private garden, our tiles will help you create a space that is not only **functional** but also **visually stunning.**

“With EGYCRETE, you can be sure that your project will make a lasting impression.”

PREMIUM PRODUCTS

The EGYCRETE Premium Line consists of **GRANIX™** and **FUSION** paving systems, developed for **projects that demand high aesthetic quality, durability, and long-term performance.** Designed for architectural, residential, and public spaces, **the Premium Line delivers enduring appeal with engineered reliability.**

GRANIX™

GRANIX™ COLLECTION

Granite Look. Concrete Strength.

The GRANIX™ Collection is a **premium** concrete paving system that captures the **natural look of granite** with the **strength** and **consistency** of engineered **concrete**.

MADE USING SELECTED NATURAL GRANITE AGGREGATES,
GRANIX™ offers a **refined surface with excellent abrasion resistance and long-lasting color stability.**

PRODUCT APPLICATIONS

Commercial Projects

Landscape Design

Pedestrian & Light Vehicular Areas

Compounds & Private Villas

Public Plazas & Promenades

 EGYCRETE is the **ORIGINAL** & only **OFFICIALLY APPROVED** manufacturer of GRANIX™ in Egypt & North Africa.

 **1st of its kind**
in Egypt & North Africa

 **Used by Major Projects Nationwide**

COMPARE & DECIDE

WHY CHOOSE GRANIX™

Granite Look. Concrete Strength.

INTERLOCK CONCRETE

- Industrial Look
- Lowest Cost Option
- Easy to Replace
- Moderate Strength & Color

NATURAL GRANITE

- Natural Granite Look
- Very Expensive
- Color Variations
- Higher Maintenance Cost Overtime
- Needs a Concrete Slab

EGYCRETE'S GRANIX™

- Natural Granite Look
- Cost-effective
- Durable & Long-Lasting
- Vibrant & Consistent Color
- Can Be Installed On Aggregate Bedding

 **BEST CHOICE**

FEATURED PROJECT

MOSTAKBAL CITY

Mostakbal City is one of Cairo's fastest growing residential destinations, **GRANIX™** was selected for its ability to deliver the **refined appearance** of natural granite while meeting the **durability requirements** of pedestrian and light vehicular areas.

In a major milestone, we **supplied 100,000+ m**, including approximately **90,000 m of GRANIX™ tiles** and **10,000 m of GRANIX™ curbstone**, installed across all of Mostakbal City in key pedestrian areas and urban streetscapes.

GRANIX™ is the **first product of its kind in Egypt and North Africa**, and **EGYCRETE** is the **only officially approved original manufacturer of the GRANIX™ system in Egypt and North Africa**.

FUSION COLLECTION

Mixed coloured pavers that last.

Pioneered by EGYCRETE

PREMIUM PRODUCT

FUSION COLLECTION

Mixed coloured pavers that last.

FUSION is a **premium mixed-colour concrete** paving system designed to create **visually rich and distinctive outdoor spaces**. Using EGYCRETE's colour-through batch technology, FUSION achieves **vibrant blended tones** that run throughout the entire paver, **preventing fading, peeling, or surface wear**.

DIMENSIONS

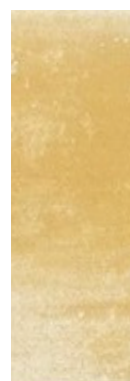

Multiple sizes available to support flexible laying patterns and design combinations.

WHY FUSION?

- Allows creative, customised layouts
- Blends naturally with surrounding
- Adds visual depth and focal points to open spaces
- Reduced surface wear
- Conceals stains, dirt, and ageing over time

CUSTOM SIZES

Tailored to your vision

CUSTOM SIZES

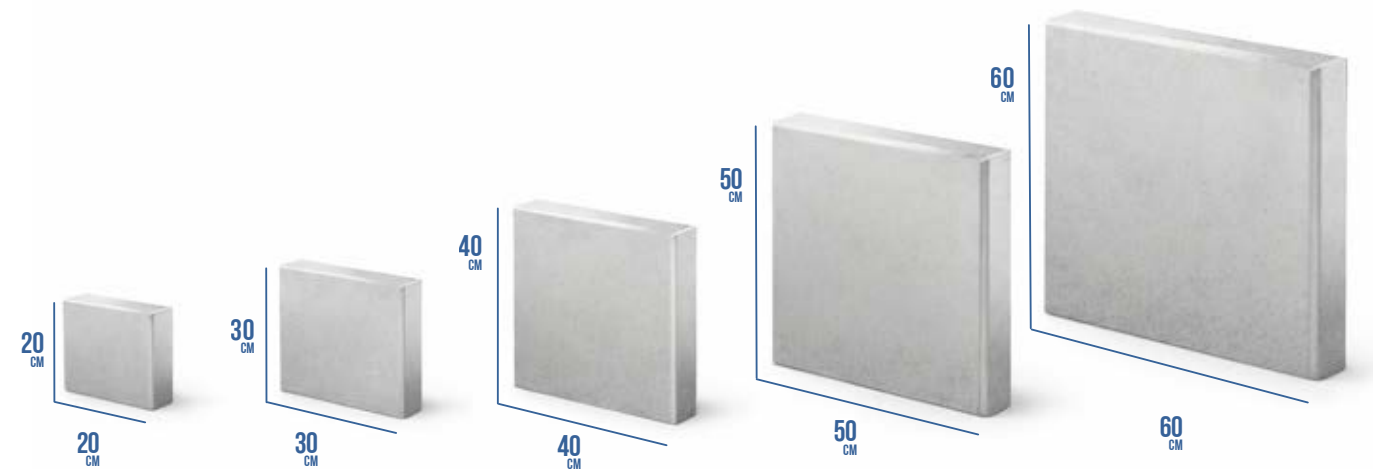

With EGYCRETE, anything is possible. We offer **customized sizes tailored to your specific needs**. Our experienced professionals can **adjust sizes, colors, and textures to perfectly match your vision**.

RECTANGLE

Our commitment to quality and precision ensures that every product meets the highest industry standards. Whether for residential, commercial, or large-scale infrastructure projects, **EGYCRETE delivers durable, reliable solutions designed to enhance both functionality and aesthetics**.

SQUARE

EASY CLEAN

SURFACE TECHNOLOGY

EASY CLEAN is EGYCRETE's advanced factory-integrated **surface protection technology**, engineered to **enhance colour vibrancy while providing long-term stain resistance**. Unlike conventional after-market sealers that simply coat the surface, EASY CLEAN is infused directly into the paver during manufacturing becoming an integral part of the concrete itself.

PERFORMAMNCE BENEFITS

Lower Maintenance Costs
Surfaces in high-traffic public spaces benefit from significantly reduced cleaning and maintenance requirements.

Weather Resistance
Protects against deterioration caused by sun exposure, rain, and environmental ageing.

Faster Spill Cleanup
Liquids remain on the surface longer, allowing easier removal before stains develop.

Long-Term Protection
Durable performance over the life of the paver.

CAIRO CITADEL

EGYCRETE proudly supplied the paving materials for the garden areas surrounding the **historic Cairo Citadel of Salah El Din, one of Egypt's most iconic cultural landmarks.**

For this project, **mixed-colour concrete pavers** were selected to **complement the Citadel's historic architecture** while providing the **durability required for high-traffic public spaces.**

Using EGYCRETE's MixColor technology, multiple tones are blended to **create a naturally varied surface that delivers a timeless antique appearance** and preserves the historic character of the Citadel.
